

Discretionary Managed Pension Model E2

April 2024

This Pension model seeks to achieve returns through a combination of both dividends/interest and capital growth. The majority of the strategy will be invested in a wide range of equity investments (both domestically and internationally), comprising Investment Trusts and shares. A smaller proportion of the Pension model will invest in holdings that we anticipate will exhibit more defensive qualities when compared to equities. More generally, there will be a bias towards developed and liquid capital markets.

Current Sector Allocation

- Cash - 1%
- Defensive - 9%
- Direct Equity - 21%
- European - 5%
- Far East - 5%
- Income - 13%
- International - 18%
- Smaller Companies - 13%
- Uncorrelated Alternatives - 15%

- Free access to our highly experienced staff to discuss your options and needs.

Key Facts

Collective Model Strategy Size	£13,929,168.54
Combined Pension Models Value	£105,609,679.96
Annual Management Charge	1.25%
Estimated Annual Underlying Investment Charge	0.6%*
Estimated Annual Transaction Charges	0.525%**
Withdrawal Fee	NIL***
Projected Annual Income Yield for £10,000	5.40%
Minimum Initial Investment	£1,000
Minimum Top up	£500
Minimum Monthly	£50
Valuation and Transaction Reporting Dates	January, April, July and October
Income Options	Monthly or Quarterly
Administrator	Quai Administration Services

*Collective investments held (mainly Investment Trusts), charge management fees. The figure shown is a fair appraisal of what that may be in total on your account. Direct stocks have no 'management costs' within.

** This covers the 1% charge on purchases and 2% on sales. There is no minimum so small deals are very economic. There is also a £150 upper cap. The appraisal suggests a portfolio turnover of 15% annually. 0.5% Stamp Duty applies to most investments anywhere and is included too.

*** On standard withdrawal terms

For full details of the terms and charges, please refer to our Discretionary Client Agreement.

Risk Warning

Past performance is not a guide to the future. Capital values and the income received can fall as well as rise. Income yield figures may vary and are not guaranteed. Where a fund holds assets in other currencies there can be extra risks from exchange rate fluctuations. Individual advice and guidance is recommended if you are unsure of anything.
