#### Important Information - How long will your transfer take?

The length of time taken to transfer investments to the Philip J Milton and Company Plc GIA will depend on whether it is a stock transfer (where your existing investment units/shares are brought across like for like), or a cash transfer (where your funds are first sold and transferred as cash). All funds listed in section 3 of this application form will be transferred as stock, and those in section 4 will be transferred as cash.

For stock transfers we would expect the process to take between 4-6 weeks. As this is purely a change of administration you will not be out of the market at any time during the transfer.

For cash transfers we would expect the process to take between 2-3 weeks, in which time you will be out of the market for the duration of the transfer. During this period, your investments will be sold. Dependent on the provider, a cheque may then be raised and sent to us. We will bank the cheque and await clearance; once cleared your monies will be available for reinvestment.

We would expect most transfers to complete within 30 days, but it will depend on the type of transfer as well as the type of stock, provider and/or platform involved.
